Summary

Detail-oriented front-end developer with hands-on experience in HTML5, CSS3, JavaScript, Node.js, and Express, complemented by practical projects including a dynamic e-commerce website and personal portfolio. Adept at building responsive, mobile-first designs while optimizing UI/UX and web performance. Eager to apply solid understanding of API integration, cross-browser compatibility, and user-centric design to enhance Shopify storefronts. Highly motivated to collaborate with product and design teams to deliver engaging and fast-loading e-commerce experiences.

Key Achievements

Web App Development
Built an interactive web app improving user engagement by 70%.

Portfolio Website
Built a professional portfolio website to showcase technical skills, projects, and contact information, enhancing visibility to recruiters.

Skills

Languages · HTML · CSS · JavaScript

Frameworks & Libraries · Express · Node.js · Node Package Manager (NPM)

Tools & Platforms · Git · MongoDB · Razor Pay · Zoho Books

Projects

My Portfolio
Bangalore, India

Created a frontend portfolio website showcasing my education, skills and projects done along with a form page to contact me and a button that on click downloads my resume.
- Strengthened grasp of theoretical concepts by applying them in real-world scenarios.
- Hands-On experience with my portfolio.

IoT Based Health Monitoring and Assistance System
Bangalore, India

Designed and built a line-following rover with a 4ft elevated shaft-mounted display powered by Raspberry Pi running Raspberry Pi OS. Integrated Jitsi API to enable real-time video consultations, allowing doctors to remotely examine patients in rural areas and provide medical guidance.
- Gained a solid understanding of Arduino fundamentals and its practical applications.
- Implemented backend logic using Express.js and Node.js to handle video call data and device communications.
- Gained knowledge on how to use API's to make calls to the server and process the information.

E-Commerce Website
Bangalore, India

Developed a fully functional e-commerce platform for an organic product store, seamlessly integrating Razorpay for secure payment processing and Zoho Books API for real-time inventory and order management.
- Proficient in integrating and working with third-party APIs for seamless functionality and automation.
- Understanding concepts of element placements in a page for user-friendly interactions.
